

ATTENTION ALL FILING OFFICERS

Our procedures are changing this year in that we have developed a Filing Officer Certification Program for the State Ethics Commission. A filing officer must successfully complete Basic Filing Officer Training, FOERS Training and Compliance Training to become certified. The successful filing officers will have their names and locations placed on our website as Certified Filing Officers.

No past training sessions will be utilized in the Filing Officer Certification Program. Everyone begins anew in 2010.

There will be an annual refresher course offered twice each year for recertification.

All of this information will be discussed at the upcoming training sessions.

We shall look forward to seeing you in attendance.
